

Associazione Studio di Tessitura Paola Besana

Our Association was born in Milan with the aim of collaborating with weaver and textile artist **Paola Besana** in her research and teaching. Paola Besana started weaving way back in 1958 and is still active both weaving and teaching. As well as being a well-known textile artist, she has a profound knowledge of all aspects of textile design.

We organize **courses and seminars on weaving and textile design** for anyone interested in craft and for designers, fashion and costume designers, schools and other public and private organizations.

Our courses are addressed to people with a serious cultural or professional interest in textiles and/or weaving.

Members have free access to the over 1800 volume-strong **textile library** which Paola Besana has been putting together over the years.
